

Job Position: **Computer Scientist, SaaS and Distributed processing**

Team: **Adobe SaaS Infrastructure**

Location: **Bucharest, Romania**

Company Description:

It's simply better at Adobe Romania! You will find here a Research & Development Center with passionate, exceptional and unique individuals who use their skills to shape the next web technologies. You will be a part of a dynamic and rewarding work environment which is well-known around the world. You will discover the excellent benefit plans and challenging programs at Adobe.

Position Summary:

As Computer Scientist, you will work with a team of talented developers and quality engineers within the Adobe SaaS Infrastructure Team. You have to have a deep understanding of scalable web architectures, distributed systems and patterns for infrastructure services.

Responsibilities:

Our team builds services providing features to new Adobe SaaS or hybrid products. As a member of our team, you will be responsible with:

- Design, code, test and deploy distributed services;
- Share responsibility for the operations work;
- Work on open-source projects that we use (e.g. Apache Hadoop and HBase); identify bugs/issues and submit patches at the necessary quality level, develop new features;
- Continuous research on relevant technologies for our project.

Knowledge & Skills:

- 3+ years of software development experience or equivalent;
- Java development experience, with scalable web development as a big plus;
- Strong Linux experience, configuration and administration skills are a plus. We target only Linux / Mac / BSD platforms;
- Experience with distributed computing, and in particular with Hadoop;
- HDFS and MapReduce is considered a big plus;
- Deep understanding of client / server programming, systems programming, server applications optimized for performance and scalability;
- Strong knowledge of database concepts (relational algebra, data storage and retrieval);
- Ability to get up to speed quickly with new technologies / tools;
- Highly adaptable; ability to change technology / tooling to what best fits the project;
- Source code portfolio / participation in open-source projects a big plusSolid foundation in development process, best practices and design patterns;
- Strong knowledge of software construction concepts and tools (code-versioning, bug tracking, code-editors, debuggers, profilers and other tools for the technologies he owns);

- B.S. or M.S. degree (degree in Computer Science, Engineering or equivalent is a bonus);
- Be a good communicator, and fluent in English;
- You must be enthusiastic and passionate;
- Being a ninja is a plus :)

Offer:

We offer you an opportunity to build a career in a rapidly expanding software company, working with international technology groups. Excellent benefits package including Stock Options Plan, Profit Sharing, Medical and Life insurance, and more.
