

## SaaS Operations Engineer – SaaS Infrastructure and Operations Team

Adobe believes in hiring the very best. We are known for our vibrant, dynamic and rewarding workplace where personal and professional fulfillment and company success go hand in hand. We take pride in creating exceptional work experiences, encouraging innovation and being involved with our employees, customers and communities. We invite you to discover what makes Adobe such a great place to work. Send your resume to: [hr-romania@adobe.com](mailto:hr-romania@adobe.com)

### Position Summary

Adobe's SaaS Infrastructure and Operations team (SIO) is expanding and looking for exceptional people that want to work in a creative, fun, and fast-paced environment.

Join us and help build the core components of Adobe's new SaaS development platform. If you love working with servers, firewalls, load balancers, and other data center equipment, then this job is for you. We're looking for a SaaS Operations Engineer with a passion for learning, a great attitude, and a love of keeping everything running like a well-oiled machine.

You will be working with many Adobe SaaS product teams to get them up and running and to make sure that the end-users' online experiences are reliable and snappy. These are high-visibility, fast-paced projects.

### Requirements

You are comfortable as part of the team that makes recommendations for the design of new data centers, helping to purchase equipment, and getting it all operational. You can set up firewalls, load balancers, switches, and routers with little or no assistance. You understand Internet and networking protocols. You are familiar with setup and maintenance of Linux and Windows servers. You like to use software and scripting to automate operational tasks.

You are highly productive, independent, have a great attitude, and you are passionate about quality and large, scalable systems.

### Knowledge & skills:

- Bs/Ms degree in a technical domain
- setting up firewalls and load balancers in a high-availability environment
- knowledge of Cisco IOS commands for setting up routers and switches
- 3-5 years of experience with installing Linux and Windows servers
- strong knowledge of data center security and high-availability techniques
- knowledge of programming and scripting in Linux and Windows environments is highly desirable
- experience with TCP/IP protocols, HTTP, and simple REST APIs is a plus
- good English language knowledge, written and spoken

## **Bonuses & benefits**

We offer the opportunity to build a career in a rapidly expanding software company, working with international technology groups. Excellent [benefits package](#) including [Stock Options Plan](#), Medical and Life insurance, and more.

Adobe believes personal fulfillment and company success go hand in hand, sustaining one another.
