

Technical Support Engineer - Business Catalyst Team, ADOBE Romania

We're looking for an articulate and motivated person with an analytical mind and a background in technical support. An ideal candidate loves the Internet and web technologies whether you are managing multiple personal blogs, social network accounts, etc.

The Business Catalyst team is part of the Design & Web Group, together with products like Dreamweaver, BrowserLab, Illustrator, InDesign, etc. As a product, Business Catalyst is helping web designers and developers create more value to their customers by hosting their online businesses on our platform. To find more, please visit <http://www.businesscatalyst.com/>.

Position summary

Responsibilities:

In your day to day role you'll focus on delivering friendly and fast email support and participate in our online forums to assist our resellers and customers. You'll also proactively suggest improvements to our support processes and documentation and assist in software testing.

To be successful in this role, you need a mix of technical thinking and great people skills. Question topics range from basic to advanced web development, so problem solving abilities and a willingness to learn new technologies are essential. You'll also have a big part to play in suggesting improvements to our development team, so you'll need initiative and the ability to empathize with our customers.

Requirements:

- Bachelor's degree in information technology, web design, or another related field or a minimum of 4 years of intense work-related experience in technical support
- Strong verbal and written communication skills. Able to work closely with internal staff to understand and communicate issues.
- Fluent in English, written and spoken
- Experienced in customer service, IT support, or technical support
- Skilled in Windows environment including Windows Explorer and Internet Explorer. (Mac, Linux environment is a plus)
- HTML, CSS knowledge
- Experience with computer networks, remote access, and Internet based programs.
- Good analytical abilities. Outside the box thinker and problem solver.
- Good team player, but able to work on own initiative.

Bonus Qualifications:

- Basic experience with Javascript, PHP, ASP, DNS, web 2.0 technologies.
- Previous experience with content management systems
- Previous web authoring applications (Dreamweaver, FrontPage, etc).
- Previous experience with FTP
- Technical training experience
- Basic knowledge of various web browsers (Safari, Firefox, etc)

- Previous experience with various web development tools (Firebug)
